

*New Members Only

One of the many benefits offered through the DQOA is the management of an effective purchasing cooperative, which enables Franchisees to purchase approved DQ products from an alternative source.

In 1991 members of the DQOA formed a buying cooperative (DQOC) to create competition within the DQ supply chain and reduce costs of goods. At the time, ADQ was the sole source of supply of approved products and distribution. This resulted in inflated margins on ADQ products and franchisees were realizing continued significant increases in cost of goods. Throughout the last 30+ years, DQOC has been successful in introducing products and programs at significantly lower prices, forcing ADQ to become more competitive with its supply chain. The result has meant a reduction in cost of goods from over 40% in the early 1990's to approximately 30% today. Competition amongst suppliers and distributors has proven to be a tremendous advantage for Franchisee profitability.

With the support of the DQOC supplier and distributor partners, DQOA has developed a new member purchasing incentive designed to showcase the benefits of having an alternative source of product and distribution available to Dairy Queen Franchisees. For a limited time, new DQOA members will receive a bundle of select DQOC products from your DQOC distributor, free of charge. See program details below.

In order for the DQOC to remain effective, DQ franchisees must continue to support the effort. Please take advantage of the offer and give the products a chance. DQOA/DQOC is confident you will be more than satisfied with the quality of the products and services.

Dairy Queen Franchisees all have a common purpose, to operate a successful DQ business and make money. This truly is a great opportunity for new DQOA members and we strongly encourage you to take advantage!
